Fix the roadway but DO NOT turn it into a slower street. People need it to traverse the city along the lakefront. The Drive is great but a more realistic, and safe speed limit is 50 MPH, Fix the underpasses,

Keep the natural feel!  
It is comfortable & pleasant.

Adding rail would be great but please do not make it too wide or full of concrete. The park feeling whether walking, biking or driving is great. Speed limit @ 50mph for cars would be more realistic. Keep the rock edge for instance on east edge of golf course **From** at Fullerton, wherever it is found now.

**My favorite thing about the Drive is....

Having a quick route on the east side of the city going N-S is great. I use the trail for cycling, walking and rollerblading. It's great not to have to worry about cars. More space for those activities and more/clearer signage about safe/appropriate use would be great. The express buses are also good. I would like to see more of them. Maybe one route that went the whole length of the drive

I love the trail & use it a lot to walk, run & bike - needs to be wider and add a soft shoulder in the places where there isn't one. LSD as a road is usually good, especially north of Michigan

Overall I think it's good - it's the only feasible way for me to drive south of Hollywood so please consider cars as well as pedestrians.

I wish the drive were  
farther away from the  
parts of the park that are  
at the lake edge (as at Montrose)  
However, as a motorist, I enjoy lake  
views from my car. I do not  
need to drive fast to enjoy the  
experience of a roadway close to the  
park.

Lakefront Parks - kind of nice to look at but except for sports related activities are not too useful
