

# Context Tailored Treatments

INITIAL RANGE OF ALTERNATIVES CATEGORY 	INITIAL RANGE OF ALTERNATIVES 
Context Tailored Treatments	Corridor Modernization
	Compressed Roadway
	Frontage Drive

- Improvements that are tailored to the varying roadway, transit, bicycle/pedestrian travel and shoreline protection needs along the corridor
- Recognize that locations along the corridor have varying needs and different contexts within which to satisfy those needs
- These treatments can be combined to form many different alternatives
