

Context Tailored Treatments

- Bike and pedestrian improvements
- Transit improvements
- Shoreline Protection
- Roadway improvements

Corridor Modernization Concept (Alternative 1)

- Modernizes existing facility to improve safety and reduce bottlenecks.

Compressed Roadway Concept (Alternative 2)

- Minimizes transportation footprint.

Frontage Drive Concept (Alternative 3)

- Depresses Outer Drive below grade and splits Inner Drive into one-way frontage drives: Grand to ELSD and Belmont to Montrose.

It is recommended that this category of alternatives be further evaluated
