

VIEW FROM INNER DRIVE

Existing Conditions

- Pedestrian access on North side of Belmont is narrow
- No dedicated space for bikes or transit
- Trail access point creates conflicts with cyclists and pedestrians
- Lack of space along harbor edge results in conflicts with trail users

Potential Future Conditions

- Wide pedestrian access at Belmont provides space for off-street bike trails
- Bus only lanes provide dedicated transit space
- Trail access includes grade separated lakefront trail and overlook space
- New park space includes a lakefront promenade walk that is separate from recreational trails
